

SHEPARD NP9 [NPE 9 Moles]

DESCRIPTION

Nonyl Phenol Ethoxylates are available under the SAINON SBNX series of products which are non-ionic surfactants derived from Alkyl Phenols. Nonyl Phenol Ethoxylates are well known for their excellent detergency and wetting properties. High range of products within NPE Ethoxylates gives them versatile solubility characteristics.

NPE Ethoxylates have application in various industries. Their compatibility with other anionic and non-ionic surfactants and other organic solvents makes them a good choice for different applications. They are widely used in cleaners & detergents, agrochemicals, paper & textile processing, metalworking fluids and paints & coatings.
